## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims **1-5,7-11** are allowed.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowable because the prior art does not teach or fairly suggest a method for demolishing concrete that is reinforced by an iron containing member (rebar). The method further claims disposing a counter electrode in electroosmotic communication with an exposed surface of the concrete; coupling the terminals of a power supply to an exposed portion of the rebar and the counter electrode; applying a constant electrical potential between the rebar and the counter electrode; then alternating the polarity of the constant electrical potential being applied between the rebar and the counter electrode. All depending claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel P Siefke whose telephone number is 571-272-1262. The examiner can normally be reached on M-F 7:00am-5:00pm.
